

# Bareboat Rib 6.8 Offshore

## With Europe's largest fleet of Ribs, Solent Rib Charter is the market leading bareboat operator.

Our Ribs are fast, fun, safe and immaculately presented as well as Coastguard coded to the highest level. We are able to deliver the Ribs for use anywhere in Europe.

All of our boats are Ribcraft Offshore models, giving true offshore performance, robustness and quality of fit out. Likewise we operate only modern four stroke fuel efficient engines. The Ribs enjoy total reliability, excellent performance and sensible fuel economy.

Bareboats are available for charter to anybody with either an RYA powerboat level 2 or an International Certificate of Competence (ICC) combined with an appropriate degree of experience. If an individual is relatively inexperienced, we offer a straightforward programme to fast track them into bareboat charter.

The boats are always supplied with lifejackets and all the necessary safety equipment as standard and free of charge. Please specify if you require lifejackets for children.

# Bareboat Rib 6.8 Offshore

## Ribcraft 6.8m Offshore

- Ribcraft Offshore design construction and build quality
- Safe and comfortable 'jockey' seating for 8 behind the console
- Coastguard coding for a total of 8 and all the correct safety equipment
- Yamaha 200HP four stroke low noise fuel efficient engine
- Braked four wheel trailer with spare wheel and strong trailer lock
- A range of electronics - VHF, DSC, and colour chart plotter
- Long range (in excess of 150nm) with 225 litre fuel tank

## Detailed specifications

- Tubes reinforced 100mm above and below rubbing strake
- 16 separate tube wear reinforcement patches
- Half length 'Keelguard' keel protection system
- Twin battery system with crossover
- Icom VHF radio with DSC
- Garmin colour chart plotter
- LED navigation lights

## Pricing

Please check our website for the latest pricing. We sell 'cards' in multiple day configurations for redemption in any two year period. The days **do not** have to be used consecutively and are a fantastic alternative to boat ownership. 10 days represents average annual boat use for an enthusiastic private Rib owner.

## Summary

We offer the best parts of ownership with smart unbranded well maintained Ribs, delivered shiny, working and full of fuel. We take care of:

- Annual berthing (£6180 in our home marina)
- Annual depreciation
- Annual servicing
- Endless cleaning
- Endless maintenance

The prices look expensive - boating is ludicrously expensive; however an annual 10 day card is a fraction of the cost of running a personal boat with none of the hassle.
