

# River Thames Rib Treasure Hunt

**Solent Rib Charter is the market leading provider of Rib Events. In the UK, we run more Rib Events than all of our competitors combined – contact us to find out why!**

Solent Rib Charter has been appointed the official Rib Charter supplier to the 2012 Olympic Games.

Because we own Europe's largest fleet of Ribs, we are very competitively priced and have significant experience at putting together an amazing day – our guests always have fun.

There is no minimum number and our biggest Rib Treasure Hunt to date had 420 participants and was incidentally run entirely in French!

These events are very flexible to fit the time available and are often combined with company

meetings, conferences and product launches as well as for team bonding and customer entertaining. Let us know if you need the event to fit into a couple of hours or last a full day.

Our Ribs are fast, fun, safe and immaculately presented. The Ribs are Coastguard coded and surveyed. Our skippers are fully qualified and commercially endorsed.

We carry significant public liability insurance for the Ribs and all aspects of our event management services.

# River Thames Rib Treasure Hunt

## River Thames Rib Treasure Hunt

Simply the most exciting event possible within the M25.

Nothing else comes close. Rib Treasure Hunts on the Thames literally stop the traffic. We make maximum use of London's geography in a way never envisaged before.

With no speed limits on large stretches of the Thames, we are able to make full use of the breathtaking speed and performance characteristics of these amazing boats.

As well as the all important competitive element, the Treasure Hunt encompasses a high speed blast from Tower Bridge to beyond the Thames Barrier.

The Rib Treasure Hunt focuses on solving fiendish clues on the Thames within the heart of London. You will see London in a whole new light from the water – our shallow draft enables us to get right up to world famous landmarks – vital for solving the clues.

River Thames Rib Treasure Hunts run throughout the year. Only snow storms slow us down.

There are a wide variety of interesting waterside venues we use for any catering that you might require before during or after the event.

Please call us to talk through how to best configure your event.

## The detail

- We operate on The Thames during daylight hours. We have found that the format most enjoyed is a 3 - 4 hour Rib Treasure Hunt incorporating the high speed blast. We offer a full range of catering to suit budget and tastes for before, during or after the event – all within central London.
- We board the boats at St.Katherine's Pier just by Tower Bridge. St.Katherine's is the ideal place to meet – easily accessible from both the City and the West End and with great facilities in the adjacent hotel for leaving bags and taking refreshments overlooking the River.
- The Treasure Hunt will be in central London to the West of Tower Bridge and we show off the high performance of these remarkable boats past the Barrier to the East of Tower Bridge.
- Participants will be split into teams with each team on a separate but otherwise identical boat. Issued with charts, stop watches and a waterproof Treasure Hunt pack, the boats will move off at two minute intervals. The challenges will stretch the best informed Londoners whilst there is still plenty of content for guests for whom English may not be their first language.
- These boats normally operate in choppy coastal waters. In central London we are able to guarantee operating in all but the most extreme conditions. Typically only snow storms will stop us.
- We provide smart breathable oilskins for everybody, which will keep participants warm and dry even through the most inclement weather.

# River Thames Rib Blasts

**Solent Rib Charter is the market leading provider of Rib Events. In the UK, we run more Rib Events than all of our competitors combined – contact us to find out why!**

## River Thames Rib Blasts

Simply the most exciting event possible within the M25.

Nothing else comes close. River Thames Rib Blasts on the Thames literally stop the traffic. We make maximum use of London's geography in a way never envisaged before.

With no speed limits on large stretches of the Thames, we are able to make full use of the breathtaking speed and performance characteristics of these amazing boats.

We blast through parts of London at high speed in close formation down as far as and often through the Thames Barrier, seeing the heart of London and the financial districts; as well as enjoying a tour of the very centre of capital.

There are a wide variety of interesting waterside venues we use for any catering that you might require before during or after the event.

Please call us to talk through how to best configure your event.

River Thames Rib events run throughout the year. Only snow storms slow us down.

## The detail

- We are able to operate on The Thames at any time during daylight hours. We have found that the format most enjoyed is a 2 hour blast through the principal section of Central London and then through the Thames Barrier where we have sufficient River space to demonstrate the amazing handling quality of the Ribs.
- These boats normally operate in choppy coastal waters. In central London we are able to guarantee operating in all but the most extreme conditions. Typically only snow storms will stop us.
- We provide smart breathable oilskins for everybody, which will keep participants warm and dry even through the most inclement weather.
- Most of our clients chose to join us at St. Katherine's pier just below and to the east of Tower Bridge on the North bank. As well as being convenient for both the city and the West End, there are excellent facilities at the adjacent hotel for leaving bags and taking refreshments overlooking the River both before and after the event.
